SUMMARY

Product-focused full-stack developer with real-world experience building, deploying, and scaling production web applications. Strong ownership mindset, comfortable working end-to-end from requirements to deployment. Experienced in fast-paced startup environments and client-facing delivery.

EXPERIENCE

Freelance Full-Stack Developer   May 2025 – July 2025
Worksani – Home Services Marketplace (Link)   *Remote*
Tech: React, Node.js, Express.js, MongoDB, Socket.IO

- Developed and maintained the React-based user interface for a home services marketplace used by customers and service providers.
- Integrated frontend with REST APIs to handle authentication, service data, and user actions.
- Built real-time chat UI on the client side enabling live customer–provider and support communication.
- Collaborated with backend developers to define API contracts, payload formats, and socket events.

Freelance Full-Stack Developer   Jan 2025 – Mar 2025
Erudite Educare LLC – Consultancy for Abroad Admissions (Link)   *Remote*
Tech: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, HBS, Nginx

- Delivered a production-ready consultancy website for overseas education admissions.
- Worked directly with the client to gather requirements and iterate on features.
- Implemented server-side rendering using HBS for improved SEO and performance.
- Deployed the application on an Ubuntu server using Nginx and handled production configuration.
